MEMBER FOR CORIO**

LABOR CONDEMNS NORTH KOREAN NUCLEAR TESTS

Labor condemns North Korea's latest nuclear test.

The test is a provocative and dangerous act that threatens to undermine international peace and security, especially on the Korean Peninsula.

The nuclear test is also in complete defiance of international law, and demands a strong response from the international community.

Alarming, the nuclear detonation comes just days after North Korea further defied international sanctions by conducting three ballistic missile tests that landed near Japan.

These reckless and unacceptable actions can only further isolate North Korea and Labor condemns these threats to global security in the strongest possible terms.
